ONEPHASE LANDSCAPING

LANDSCAPING OUTDOOR DEVELOPMENT IRRIGATION MAINTENANCE

COMPANY OVERVIEW

Onephase Landscaping is the landscaping and outdoor solutions division of Onephase Group, providing professional landscaping, garden development, irrigation, maintenance and outdoor environmental improvement services.

We transform outdoor spaces into functional, attractive and sustainable environments for residential, commercial, corporate, industrial, mining, municipal and public-sector clients.

Our approach combines landscape design, horticulture, hard landscaping, irrigation, planting and ongoing maintenance to create outdoor spaces that are visually appealing, practical and built to perform.

VISION

OUR VISION

To become a leading landscaping and outdoor development company in Southern Africa, recognised for quality workmanship, innovative design, sustainability and reliable service.

MISSION

OUR MISSION

To create and maintain exceptional outdoor environments that enhance the value, functionality, appearance and sustainability of properties and developments.

OUR SERVICES

1. LANDSCAPE DESIGN & DEVELOPMENT

We develop outdoor spaces around the client's requirements, site conditions and intended use.

- Landscape Planning
- Garden Design
- Commercial Landscaping
- Corporate Landscaping
- Residential Landscaping
- Industrial Landscaping
- Public-Space Landscaping
- Estate Landscaping
- Site Rehabilitation
- Outdoor Space Development

2. SOFT LANDSCAPING

Our soft landscaping services introduce natural elements that improve the appearance and environmental quality of outdoor spaces.

- Lawn Installation
- Grass Planting
- Trees & Shrubs
- Flower Beds
- Ground Cover
- Indigenous Plants
- Decorative Planting
- Hedging
- Mulching
- Soil Preparation
- Plant Replacement

3. HARDSCAPING

We combine landscaping with durable built elements to create functional outdoor environments.

- Paving
- Walkways
- Garden Edging
- Retaining Walls
- Decorative Walls
- Outdoor Steps
- Gravel Landscaping
- Stone Features
- Garden Features
- Seating Areas
- Outdoor Structures

OUR SERVICES

4. IRRIGATION SYSTEMS

Efficient irrigation is essential for maintaining healthy landscapes.

Our services include:

- Irrigation Design

These services can complement the broader Onephase Earth Resources and Onephase Civil Technik capabilities.

8. MUNICIPAL & PUBLIC LANDSCAPING

We support the development and maintenance of attractive public environments.

- Parks
- Public Gardens
- Road Reserves
- Traffic Islands
- Community Spaces
- Municipal Facilities
- Recreational Areas
- Streetscape Landscaping
- Public Green Areas

OUR LANDSCAPING PROCESS

CONSULTATION

Understanding the client's objectives, budget, site and functional requirements.

SITE ASSESSMENT

Evaluating soil, drainage, existing vegetation, access, water availability and environmental conditions.

DESIGN

Developing a practical landscape concept and planting strategy.

IMPLEMENTATION

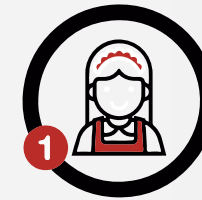

Preparing the site and installing landscaping, hardscape, irrigation and planting elements.

MAINTENANCE

Providing ongoing care to protect the investment and maintain the landscape.

INITIAL SETUP

- Place trained, experienced staff on site
- Provide staff with PPE and specialised tools and equipment
- Tailor a landscaping plan according to client needs.

ONGOING OPERATIONS

- Consumables are ordered on a monthly basis
- Types of consumables and quantities depend on site and requirements
- Use of colour codes to identify suitable use areas.

INITIAL OPERATIONS

- Create schedule for day-to-day operations
- Educate staff on client requirements
- Maintain PPE
- Weekly site inspections
- Advanced and specialised services (lawn analysis and treatment).

PPE

- Supply staff with proper uniforms
- Supplying staff with required protective clothing (boots, dust masks, wide-brim hats, gloves, safety goggles etc.)

8

Schools, campuses and institutional outdoor environments.

WHY CHOOSE ONEPHASE LANDSCAPING?

Professional Workmanship

We focus on quality installation and attention to detail.

Complete Solutions

From design and site preparation to installation and ongoing maintenance.

Sustainable Approach

We promote appropriate plant selection, efficient water use and environmentally responsible landscaping.

Industry Experience

Our position within Onephase Group gives us access to complementary capabilities in civil construction, mining, energy and technology.

Customised Solutions

Every landscape is developed according to the site's conditions and the client's requirements.

Long-Term Maintenance

We can provide ongoing maintenance programmes to preserve the appearance and health of completed landscapes.

SUSTAINABLE LANDSCAPING

We recognise the importance of responsible water and environmental management.

Our approach can incorporate:

- Indigenous & Adapted Plants
- Water-Efficient Irrigation
 - Drip Irrigation
- Rainwater Management
- Soil Improvement
 - Mulching
- Reduced Water Consumption
- Sustainable Plant Selection
- Rehabilitation Planting
- Responsible Green-Waste Management

Our objective is to create landscapes that are beautiful,
functional and environmentally responsible.

OUR COMMITMENT

At Onephase Landscaping, we believe that well-designed outdoor spaces do more than improve appearance.

They create better environments, improve property value, support wellbeing and contribute to sustainable development.

We are committed to delivering landscapes that combine:

BEAUTY FUNCTION QUALITY SUSTAINABILITY

ONEPHASE LANDSCAPING

CREATING SPACES. GROWING ENVIRONMENTS.
